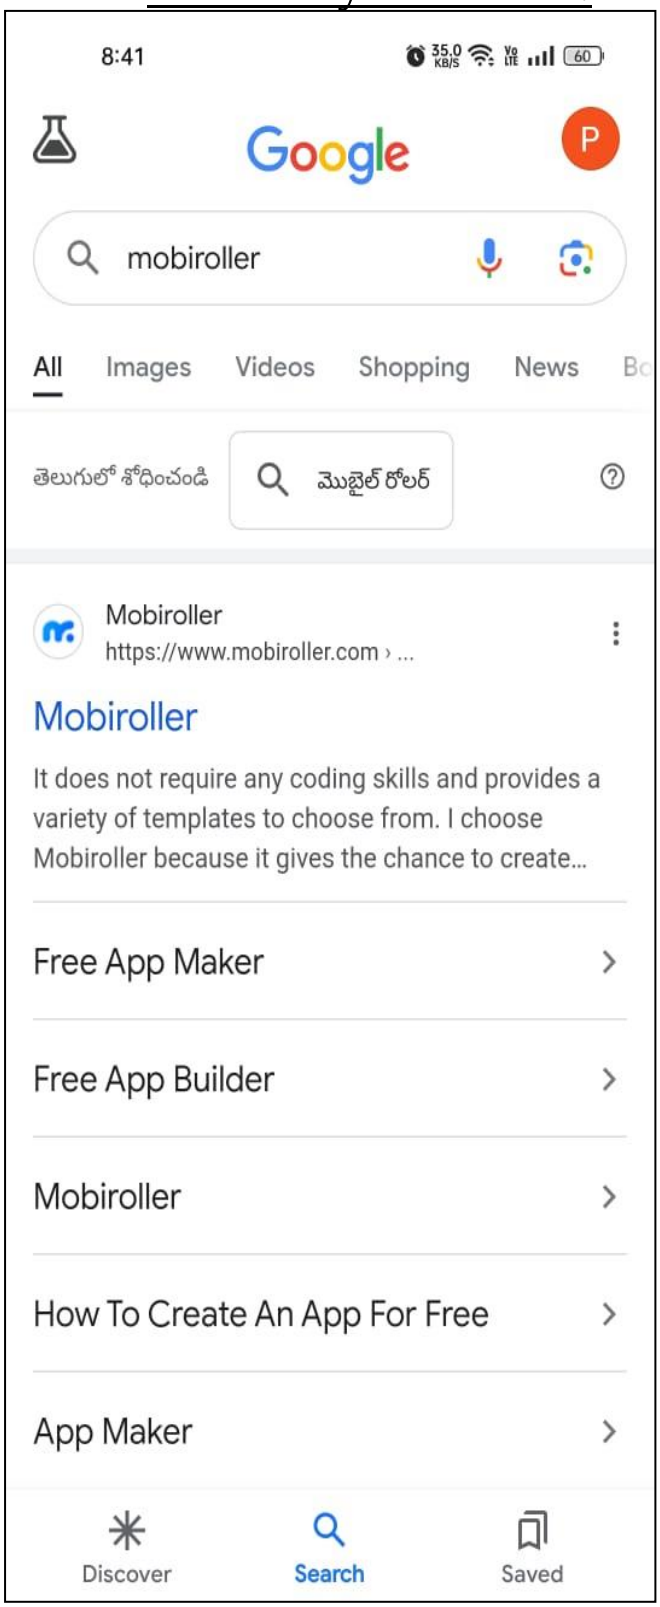
DISASTER MANAGEMENT

Introduction:

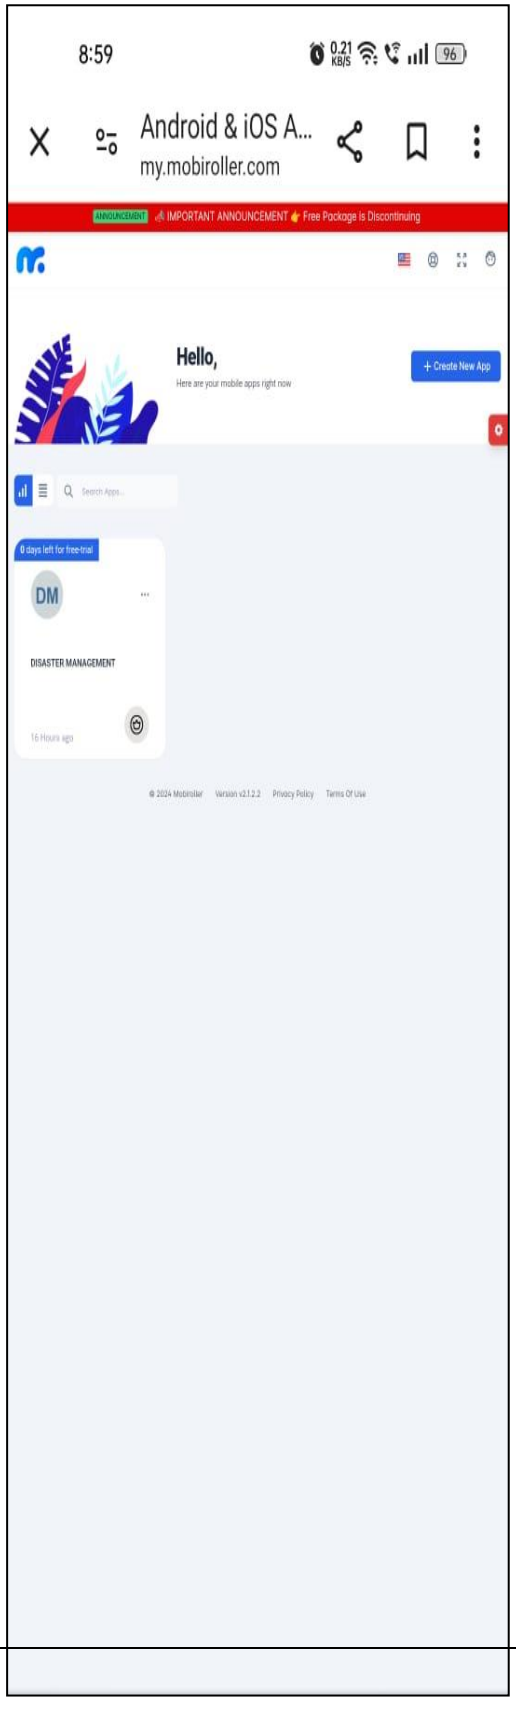
- To save the life's of the people we are introduced a new technology called disaster management .
- DISASTER MANAGEMENT: Disaster management is a process of effectively preparing for and responding to disasters. It involves strategically organizing resources to lessen the harm that disasters cause. It also involves a systematic approach to managing the responsibilities of disaster prevention, preparedness, response, and recovery.
- This app not only ment for the disaster management but also for the cyber attacks,police issues,antiragging complains etc....

process:

- search: mobiroller app in google ,then click on get started/try it for free.



- After that click on create new app,it will ask you to signup then give your details like gmail,password.
- Procede with that information.



- Then it will ask you to create app name ,tamplate,okay.clicck the process.

Add To App

- The complete app will be displayed after genetating api keyand, payments.
- This website is helpfull to design an app for free with in 7 days,after that the app will get blocked and if you wants to see your contents we have to pay free to the store and can be procedable.

CONCLUSION: By implementing this app we can able to save the life's of many peoples in there dangerous situations by the help of phones calls,resuce team,seeing the downloaded videos in the app,.and wants to tell the people to get government sceams.of there survival.

BUILD UP A COMPANY

- *Not only for that we will also build up a company and keep them the workers to recive the call's from the app user's and say them the guidiness, locateon sharing,encovering the users where are you from,mediator between the app user and the resuce team members ect..

FETURE UPDATIONS:

- Implement a column for downloaded videos,not to consume net.
- Wants to take real time videos of saving ther lifes,and posting here.safety measurements video can also be taken.
- The resuce team will have a protecting cap and that cap consistes of a cc camera.to record the real time example to inspire other people not to repeat the same mistakes.
- And the camera also give a special sound if he/she of resuce team member has any danger attack upon them selfeves.in that accidents.
- Important one is to keep a google speaker at the head of the content,to read/say the given information into different languages that can be auadiable.
